

## PRE-K OUR WAY

Prepared for school, ready for success.

# EXPAND NJ'S PRE-K

## LET'S MAINTAIN MOMENTUM!

---

Pre-K Our Way ([www.prekourway.org](http://www.prekourway.org)) is a nonpartisan, nonprofit organization started in early 2015 to provide a strategic effort to have pre-k expansion as a NJ priority. The organization is a statewide advocacy effort led by former governors Kean and Florio and funded by almost 10 different philanthropic organizations. From inception, Pre-K Our Way has had a **single focus: expansion of New Jersey's existing high-quality, state-funded, full-day pre-k program**. Despite a law passed in 2008, the first funding in nearly a decade occurred in June 2017. Thanks to Governor Murphy and the Legislature, there are now nearly 150 communities with state-funded, full-day pre-k, BUT, approximately 125 eligible school districts still wait. During the COVID-19 crisis – and the resulting budget constraints – the FY21 State Budget included funding for existing 'expanding expansion' districts – and \$10 million in funding for new districts in the 2020-2021 school year. Our goal for the next school year – 2021-2022 – is to have more than 200 districts with state-funded, full-day pre-k!

Working **strategically, tactically and together**, pre-k expansion has become a NJ priority! Throughout the 2017 election cycle, pre-k expansion and funding for pre-k were supported at the gubernatorial, legislative and local levels. Beginning in 2018, support from Governor Murphy and the legislative leadership resulted in nearly 150 communities with state-funded, full-day pre-k in the 2019-2020 school year! There has been funding for pre-k expansion in all three of the Murphy Administration's state budgets – and the legislative leadership has been integral to maintaining pre-k expansion's statewide priority. Let's maintain the momentum!

Through its targeted messaging and strategic focus, Pre-K Our Way has driven significant results:

- **Made pre-k expansion a NJ priority:** it was one of the top 5 priorities in the 2017 gubernatorial election season and has been a legislative priority since 2016; Governor Murphy's first budget message in 2018 included a commitment to universal pre-k; in July 2019, the position of Assistant Commissioner, Division of Early Childhood Education was announced and put early education at an assistant commissioner level for the first time in nearly a decade. During the COVID-19 crisis – and

MORE

the resulting budget constraints – the FY21 State Budget continued pre-k expansion as a NJ priority and included funding for existing ‘expanding expansion’ districts – AND \$10 million in funding for new districts in the 2020-2021 school year

- **Secured funding for pre-k expansion:** funding in July 2017 was the first funding for pre-k expansion in nearly a decade; when combined with pre-k expansion funding in the first three budgets of the Murphy Administration, there has been more than \$185 million in new, bipartisan pre-k expansion funding in the four most recent state budgets; NJ currently has nearly 150 school districts with state-funded, full-day pre-k PLUS additional funding for existing districts with pre-k expansion for their planned ‘expanding expansion’
- **Established a clear, focused message and purpose:** expand NJ’s existing high-quality pre-k for 3- and 4-year-olds into more communities
- **Extended advocacy beyond the usual community of support:** showcased the importance of NJ’s pre-k for child health, working parents and the business community, educational achievement and long-term future success – including reduced costs for law enforcement and as an investment in New Jersey’s future; motivated in-person outreach across 400+ communities/all 21 counties/every legislative district
- **Identified key legislative education opportunities:** shaped testimony of more than half of the presenters for the 2015 Senate Education Committee Hearing on Benefits of Pre-K; included pre-k expansion in the Legislative Leadership Policy Agenda Priorities beginning in October 2015 and throughout 2016 and 2017 (position papers presented by both State Senate President and Assembly Speaker); maintained focus on pre-k expansion throughout every budget cycle since and including 2016 – and counting
- **Linked pre-k expansion funding to school funding discussions in 2016 and 2017 – and now, beyond:** the Murphy Administration has included *continued* and new pre-k expansion as part of a district’s annual school funding formula for districts where pre-k expansion had already been awarded (‘expanding expansion’)
- **Conceived, organized and executed the Campaign for Pre-k Expansion:** a focused, enhanced media outreach effort and continued at critical times in the calendar to drive the message of pre-k expansion directly to the governor and legislature

**Pre-K Our Way continues strategic focus on pre-k expansion and on securing funding for pre-k expansion. Working together, we can continue to keep NJ’s pre-k as a priority! Remember, the focus for the next state budget (FY22) is to fund pre-k expansion for a total of more than 200 districts! Let’s maintain momentum!**
